- 1. Blake Pedigree Chart – Blake Museum at Bridgwater, Somerset. This is a recent addition to their website:**

<http://www.bridgwatermuseum.org.uk/>

**The Blake Museum has given me permission to put these charts in the newsletter so I will continue with some of these Blake family lines. In the last issue of the newsletter (Volume 7, Issue 4, 2018), I used a number of these charts looking at a particular line as I was reworking the yDNA website layout. Time has escaped me once again and I have still not completed this task.**

**The last newsletter looked at the individuals who believed they were descendants of William Blake and Agnes (Band, Thorne) Blake. This set of results belongs to R-M269 as do several of the groups of results. The division of these groups was done by an earlier researcher and has suited the project for quite a while. However, yDNA has moved along and SNPs tend to be the means of separating sub clades rather than alleles. However, not that many members of the group have completed deep clade testing.**

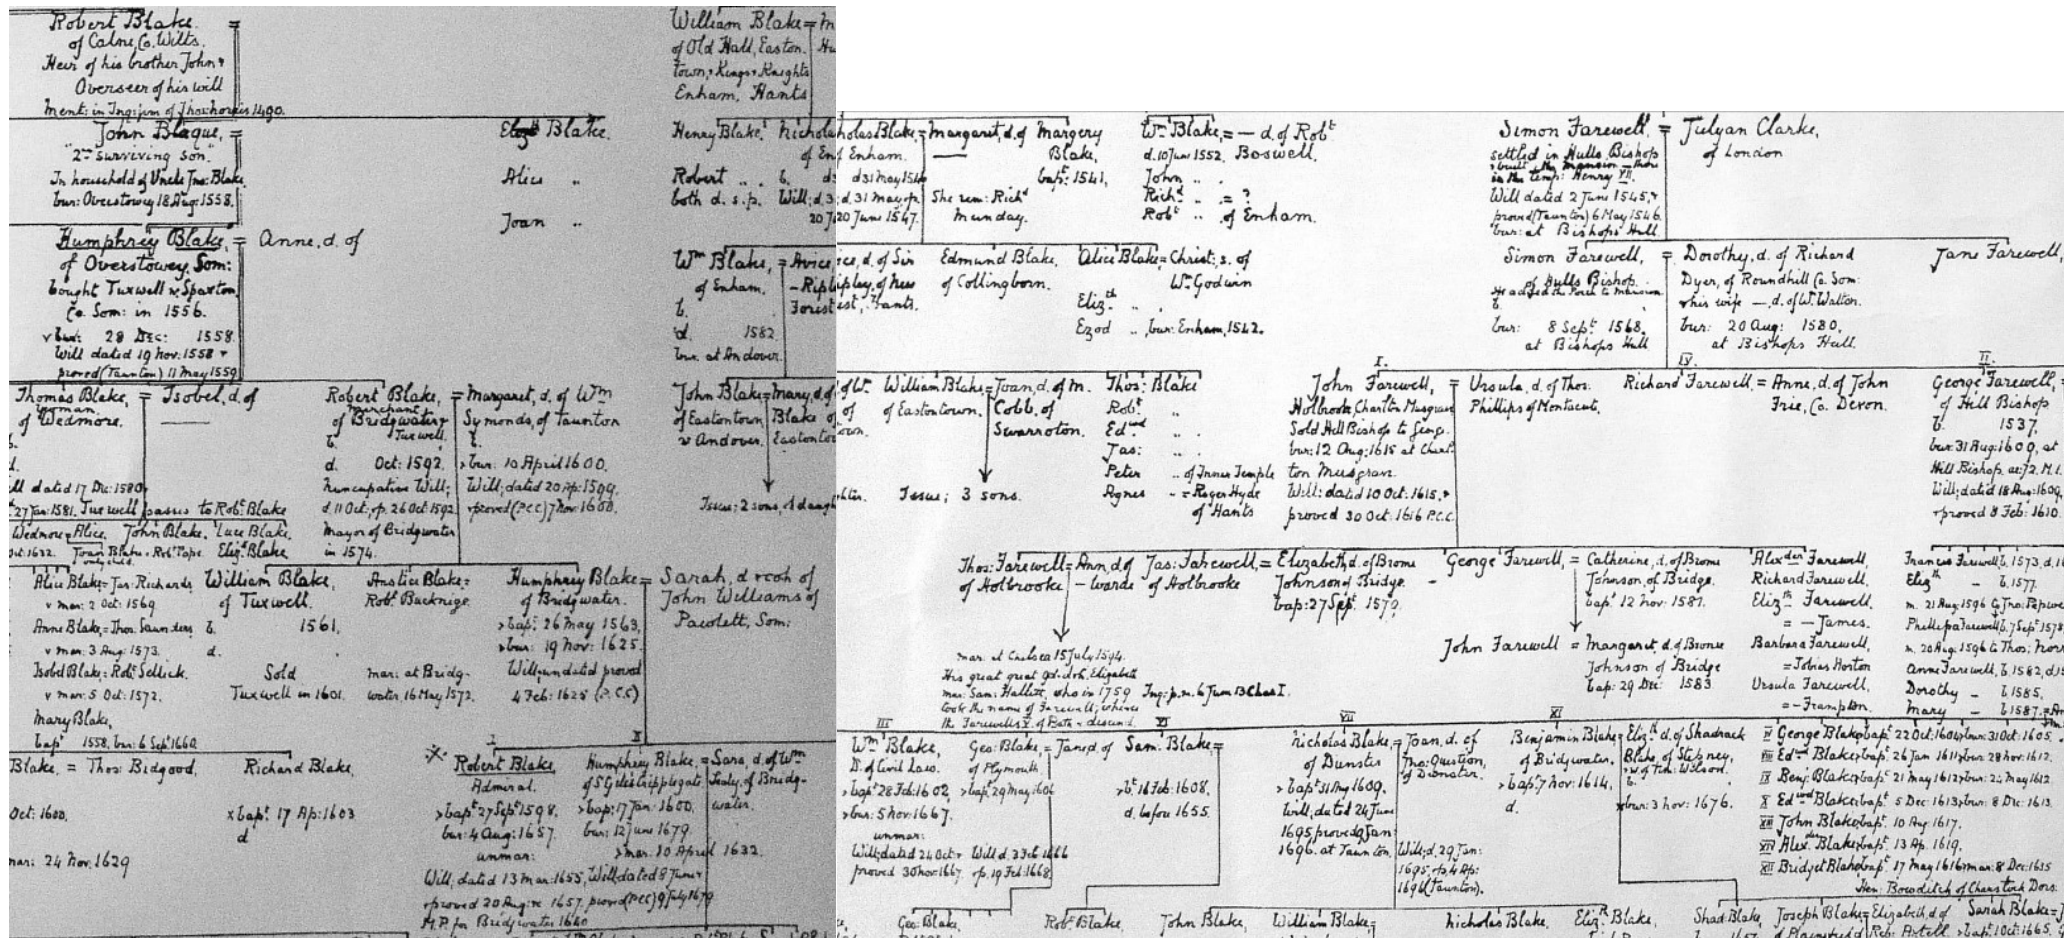

**So how to rework the website so that it retains some of the original ideas but also incorporates the deep clade results that a number of members of the study have completed. I am going to look at E1 English Ancestry (4) and this group includes four**

**members of the study who belong to R-M269. Two of the four members of this group have completed 37 markers only, one has completed 12 markers with the 4<sup>th</sup> having completed 67 markers. In total nine of the alleles are different from the usual values for this group. One member has four differences, two members have one difference and one member has two differences. If we now take the mean of this group and compared it with the mean of the group discussed last newsletter then we have the following differences**

	DYS391	DYS385	DYS439	DYS459	DYS437	DYS448	DYS464	DYS460	Y- GATA- H4	DYS456	DYS576	DYS570	CDY	DYS534	DYS481	DYS520	DYS446	DYS617
<b>English Ancestry (3)</b>																		
<b>MIN</b>	10	11,11	12	9,10	14	18	13-15-16-17	11	10	15	18	18	35-37	15	19	21	15	12

<b>MODE</b>	10	11,11	12	9,10	14	18	14-15-16-17	11	10	15	18	18	35-37	15	19	21	15	13
<b>English Ancestry (4)</b>																		
<b>MIN</b>	10	11,15	11	9,10	15	19	14-15-17-17	12	11	16	17	18	38-38	16	23	20	13	12
<b>MAX</b>	11	11,15	13	9,11	15	19	15-15-17-17	13	11	16	17	19	38-39	16	23	20	13	12
<b>MODE</b>	11	11,15	12	9,10	15	19	15-15-17-17	13	11	16	17	18	38-38	16	23	20	13	12

**I have chosen to compare the set of data attributed to the earlier researcher to the descendants of William Blake and Agnes (Thorne) Blake to this set of data (red lettering shows the differences) which has simply been named English Ancestry (4) with the members of this group having primarily south England ancestry in the Wiltshire/Dorset area. These two groups are not related in the genealogical time frame since their genetic difference exceeds 16 where differences of 5 to 6 might be acceptable to prove common ancestry in a genealogical timeframe. However they do belong to the same grouping R-M269. The next question would be have any of these individuals tested SNPs to determine subclade. They have not hence I will retain the structure of the earlier researcher but these two groups both belong to R-M269. This particular group has one member who is descendant of John Blake and Racheal Bevis. Does this couple appear on the Blake chart held by the Blake Museum? This couple does not appear on the Chart.**

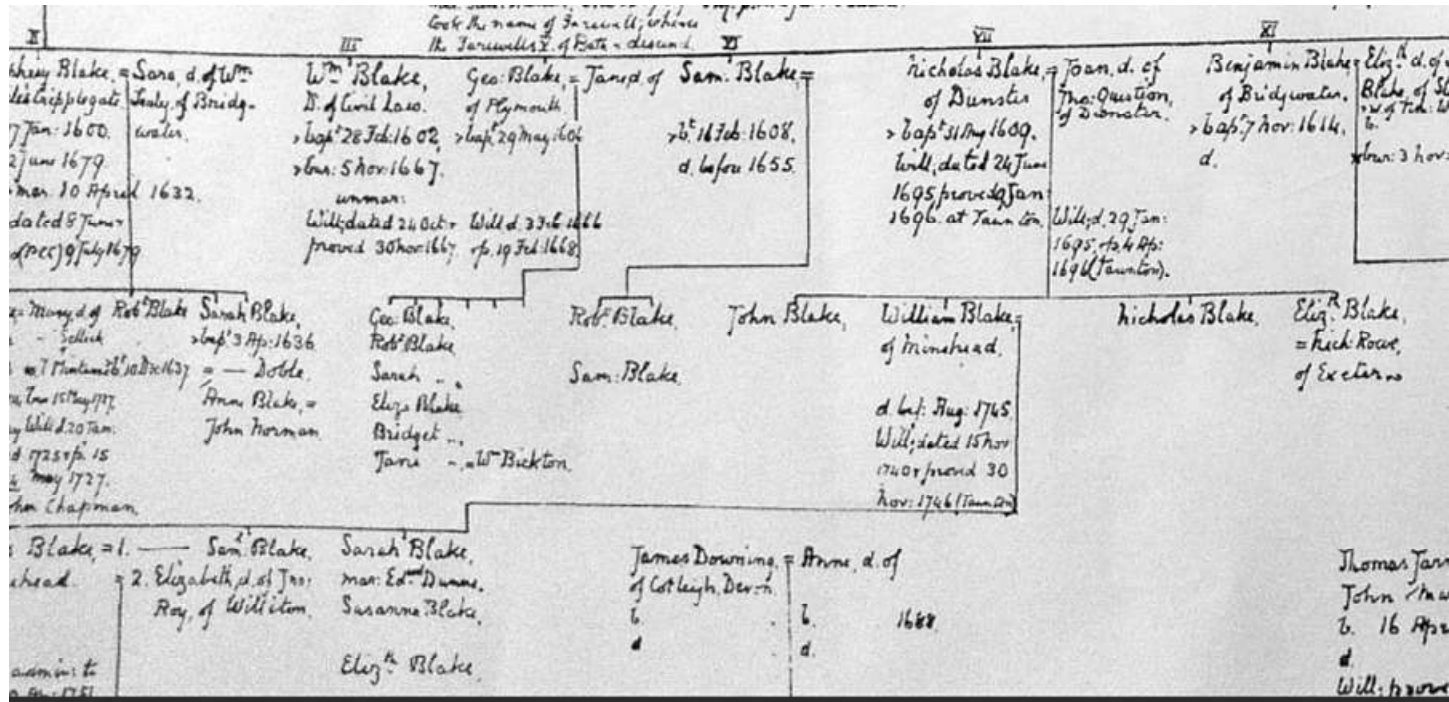

**An interesting Blake line on this chart is related to one of my ancestral lines in the Somerset area and I will mention this particular Blake line in this newsletter.**

**These charts from Images 1 and show an interesting (and historically speaking an opinion of the last couple of hundred years) descent from the Blake family at Calne to the father of Robert Blake, Lord High Admiral during the Commonwealth period of English History. Robert Blake of Bridgwater married Margaret Symonds of Taunton and their son Humphrey Blake of Bridgwater married Sarah Williams of Pawlett. This couple had a family of 15 children - 13 sons and 2 daughters (two sons died in infancy). The eldest child was Robert Blake, Lord High Admiral. The seventh child, and seventh son was Nicholas Blake, Captain in the**

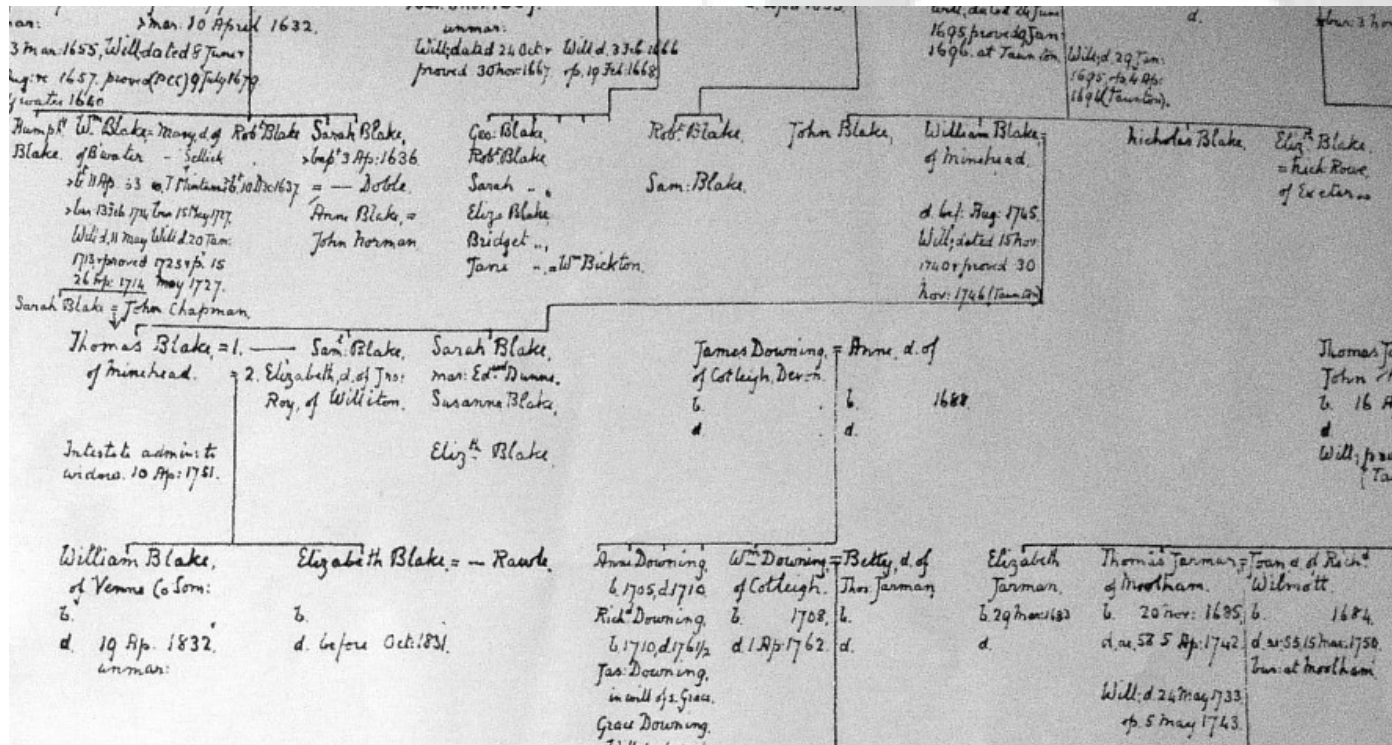

**Army. Nicholas Blake rather interests me in a personal way as he married Jone Question my 7<sup>th</sup> great grandaunt. They had a family of five children which included four sons and one daughter.**

**This crop of image 2 shows Nicholas Blake married to Jone Question with sons John, William and Nicholas and daughter Elizabeth. A number of online trees add a fifth child to this family – Zachary Blake. I have not been able to verify that Zachary Blake was a son of Nicholas Blake and Jone Question. In the will of Nicholas Blake (copy read at the West Heritage Trust: Somerset Archives online A/CGP/3/2) probated 24 Jun 1693 Nicholas mentions his wife (unnamed), his sons Nicholas and William and his daughter Elizabeth Rowe. He also mentions his grandchildren Thomas, Samuel, Sarah and Susannah Blake. There is also**

land mentioned in this document which had formerly been owned by Admiral Robert Blake (always an interesting find to prove the relationship between these two brothers).

Information is provided on this chart (Image 5) for the children of William Blake (son of Nicholas Blake and Jone (Question) Blake).

**There isn't a lot of information provided on the descendants of Nicholas Blake and Jone (Question) Blake in this chart. William Blake is known to have married Margaret Sealey and they lived at Minehead. It is thought that they had three sons and three daughters although this chart lists only Thomas, Samuel, Sarah, Susanne and Elizabeth with the other name being William.**

**In my blog "Will of Mary Anne Blake, spinster, Clifton, Gloucestershire .... probated 24 Apr 1833"**

**<http://kippeeb.blogspot.com/2014/05/will-of-mary-anne-blake-spinster.html>**

**mention is made of the possibility of a Nicholas Blake having fathered Mary Anne Blake. I did not at that time link back to this Nicholas Blake and still do not but there is a lot of detail in this blog post on the Blake family in Jamaica.**

\*Used with permission

**The above charts/cropped charts are simply a reproduction of material from the Blake Museum. Thank you to the Museum for permitting the republication of their chart to this Blake Newsletter.**

- 2. Blake Surname Study – Progress: One Name Blake Study at the Guild of One-name Studies was originally undertaken by another researcher. In 2011, I became the researcher for the Blake-one-name Study at the Guild. There was already a pre-existing yDNA project run by Bill Bleak and he continues as the main administrator of the project. As can be seen below only 16 members of the study have completed a Big Y (SNPs testing for deep clade determination) making it virtually impossible to do more than has been done with some of the groups.**

#### **Project Statistics**

<b>Total Members</b>	<b>181</b>
<b>Big Y</b>	<b>16</b>
<b>Combined GEDCOMs Uploaded</b>	<b>12</b>
<b>Paternal Ancestor Information</b>	<b>124</b>

<b>Predicted Y-DNA Haplogroups</b>	<b>23</b>
<b>Y-DNA12</b>	<b>104</b>
<b>Y-DNA25</b>	<b>87</b>
<b>Y-DNA37</b>	<b>84</b>
<b>Y-DNA67</b>	<b>58</b>
<b>Y-DNA111</b>	<b>31</b>

**The task of managing these groups is large and I will gradually work away at converting them to the new standard of placing individuals by their deep haplogroup testing. I would recommend that all members join the relevant haplogroup project to learn more about your haplogroup.**

**That being said, I have begun the task of conversion beginning with what I knew best; namely, my own line tested by my brothers. The I2 lines in the project are ancient to the British Isles probably arriving just as the ice sheets were retreating. More people belonging to the project in these particular lines would be most helpful.**

### **3. Blake autosomal DNA Study at FT DNA (Family Finder)**

**In some cases these are large matches and in other cases relatively small but that is the way with the inheritance of autosomal DNA. With each generation chunks of autosomal DNA can either be broken into smaller units or passed as a large chunk relatively intact. It is a purely random event. Due to privacy concerns it is not possible to produce a chart of the members who do have matches with other members of the group but each member is able to check that for themselves in their account. What would be helpful is adding a family tree to your account thus making it much more possible to find matching autosomal DNA cousins in your research.**

### **4. Andover, Hampshire, England Parish Registers (Baptisms – set 4)**

**Andover, Hampshire, England has often been said to be the “home of the Blakes” when I have been writing to people in Hampshire through the years. I would say that Calne, Wiltshire perhaps has a stronger hold on that particular title although there are a number of other areas in England where the Blake family has been for centuries. When I decided to transcribe the Parish Registers of Andover I was surprised to find that yes there are a number of Blake entries but there are far more Blake entries in Parish Registers in other parts of England as mentioned. In this issue, I will publish the baptisms for Blake in the Parish Registers. These records are taken from fiche which have scans of the original parish registers. The registers for baptisms begin in 1588 and have provided me with a lot of details on the Blake family in Andover in the late 1500s and into the 1600s/1700s. Eventually I hope to complete my project of transcribing these Parish Registers for St Marys Andover beyond the early to mid 1700s.**

**Baptismal Registers commenced in 1588 and I will start publishing these transcriptions for Andover.**
