1. The Kip-Kipp Family Newsletter

This newsletter as edited by me will only look at the yDNA study at FT DNA for the Kip-Kipp families and maintain the information that is online for the Kip-Kipp lines that Edward created. I welcome any submissions to this Newsletter on the other results for Kipp descendants in the FT DNA study.

I am quite late with this newsletter with apologies for that. I am finding it more and more difficult to work on Edward's material as time passes. We used to chat about his family lines at our breaks from research during the day and not having him present for that has hampered my thoughts on how to deal with this study.

2. Edward Kipp, HBSc, PhD, MLS

Putting Edward's thesis up on line has not actually progressed but perhaps this summer I will accomplish it.

3. History of The Kip Family in America

World Connect is no longer available to find Edward's published tree but it is now available on Ancestry. I created an *.pdf and can be found below this line:

<http://www.kipp-blake-families.ca/kipfam.htm>

An earlier researcher put together an extensive family genealogy book "History of The Kip Family in America" by Frederic Ellsworth Kip of Montclair, New Jersey and assisted by Margarita Lansing Hawley of Morristown, New Jersey, 1928 at Boston by Hudson Printing Company. It is available on Internet Archive:

https://archive.org/stream/historyofkipfami00kipf_2/historyofkipfami00kipf_2_djvu.txt

Edward has updated this book in Legacy and it is available on the website as "Descendants of Hendrick Hendricksen Kip" (published by the Estate of Edward Burnice Kipp 2024):

<http://www.kipp-blake-families.ca/publications/Descendants%20of%20Hendrick%20Hendricksen%20Kip.pdf>

4. yDNA study at FT DNA on the Kip-Kipp Families

The actual group has a number of results for various Kip and Kipp families. Edward's line emigrated to the United States from The Netherlands to New Amsterdam/New Nork. As well there were emigrants directly from Germany in the 1750s to the United States but I will not discuss those results. I welcome anyone else to submit articles to this Newsletter.

On my part this is the only section that will change in this newsletter as I want to continue updating the community with any additions/changes to the yDNA Study at FT DNA for the Kip-Kipp family of New Amsterdam/New York.

Project Statistics:

Big Y	5
Distinct Y-DNA Confirmed Haplogroups	10
Paternal Ancestor Information	25
Predicted Y-DNA Haplogroups	8
Total Members	42
Unreturned Kits (includes 1 of mine)	4
YDNA Deep Clade (Prior to 2008)	1
YDNA Deep Clade (After 2008)	3
Y-DNA Subgroups	7
Y-DNA12	19
Y-DNA25	17
YDNA37	17
YDNA67	17

Seven members of the study are included in these statistics above but are not in the male Kip/Kipp lines mentioned in the project (groups 6 and X).

5. Next Issue

I am finding that I do not really have much to add on this regular a basis of writing a newsletter so will now just write one issue a year unless someone sends me material on the other Kipp lines that they would like to have published

Anyone wishing to submit an article/letter to the editor please send to Elizabeth Kipp (kippeeb@rogers.com).
