1. Discussion: The Book

This has been an incredibly busy summer for me with comings and goings. But the last few weeks have finally settled down as I prepared for my Driver's License renewal appointment which was just a vision test and a cognitive test. I passed both I am happy to say. Now the testing will be every two years but I do have a 59 year driving record with no tickets, no demerit points and no accidents on my record. I only drive to the grocery store and back which is less than three blocks away. It would be doable to solve that with delivery and walking up to get items but I still have the license for another two years and that does make it easier.

In terms of the book, I am in exactly the same place as I was last May so this will be short but I decided to publish the Bishops Nympton transcriptions and they will begin to day with baptisms and marriages (300 baptisms and 200 marriages. It is a long text (nearly 1000 pages) so it will take a while to publish the baptisms, marriages and burials. Although I have

glanced at them they are not thoroughly proofread. Time has advanced so quickly these last ten years that I just never did get to doing that. I am always willing to answer questions and do have the fiche of the original records.

For me Bishops Nympton is the home of my Pincombe family in the modern era although prior to living at Bishops Nympton from the late 1500s on my Pincombe family was always in the vicinity of North/South Molton. I have done some thinking on this proposal that I made concerning the location of this family prior to their arrival in North Molton with John Lord Zouch in 1486. The possibility of them having been in Pencombe, Herefordshire is very strong but I have a number of items to transcribe from the Latin. When my new reading glasses arrive I will get back to that work.

2. DNA and its value in the study

When this study was created by Galen Pinkham and Dr Richard Pinkham the two surnames were chosen – Pincombe and Pinkham. Both surnames are used within the Pincombe family that descended from the North Molton Pencombe family. Given the knowledge that I have accumulated on yDNA I will continue reviewing the results of the yDNA tests that have been done within the project. I may also actively try to recruit more testers. I will continue looking at the latest finds in terms of archaeological studies regarding particularly ancient British yDNA but also more and more people are testing who live on the European Continent in the Flanders area so that too is something I will continue observing. More comments once I have thought through all of this and done research on what has been learned about the various haplogroups.

3. Landkey Parish Records

A correspondent from South Dakota, USA wrote to let me know I had never published the early Landkey baptisms (at least there were some earlier than the ones that I had published. Thank you to my correspondent and they follow below:

Number	Surname	Forename	Status	Surname	Forename	Surname	Forename	Year	MonthDay	Details
1	Waldens	infant child	Waldens	Thomas		1602	May	14
