1. Pincombe Charts, original One-Name Study at the Guild of One-Name Studies

These Pincombe Charts were created by the two researchers in the original One-name-study at the Guild of one-name-studies. I reprint them with the thought in mind that others could add to the knowledge of these charts. I have reworked some of them and will publish that information when complete. I am publishing the Chart 11 for Barnstaple in this issue of the Pincombe-Pinkham Newsletter.

Any information on any of these lines is most welcome and if you wish to write up an article on the family at Barnstaple it would be interesting to understand more about this line of the family. More work is needed on this chart to verify the entries and add new information.

The top of the pedigree chart at Barnstaple has John Pinckcombe who married 13 Jun 1594 Jane Sherman at Barnstaple. I have not seen an original image for this particular record and it is found in England Marriages 1538-1973 and I checked it at Find My Past. Also found on find my past a Port Record for a John Pyncombe, Merchant, 03 Nov 1595 and the vessel was Phenix (30 Tons) and registered at Northam with Barnstaple being the Administrative Port. John Pyncombe was bringing in Rochell wine from La Rochelle, France (archival reference E190/936/13 from the Customs Port Book for Devon. There are several of these records in 1595 for John Pyncombe as the merchant listed receiving the particular goods. Is this the same John Pinckcombe who married in 1594 at Barnstaple? I have not yet purchased the fiche for Barnstaple but would do that in the future perhaps. I tended to concentrate in the Bishops Nympton/North Molton/South Molton/Rose Ash/Landkey area looking for my Pincombe families initially. As the Pincombe one-name study grew I extracted a lot of material from Find My Past and photographed over 500 documents at Kew which I hope to transcribe and put into this newsletter once I have completed the wills.

I do not find a burial registration in 1616 for a John Pincombe on Find My Past or Family Search. I did find on Find My Past at Barnstaple the baptisms of Agnes Pinckombe 22 Jul 1599, Alse Pinckcombe 11 Jan 1602/3 and Rawlin Pinkcombe 27 Apr 1605 with father noted as John Pinkcombe in all baptisms (database England Births and Baptisms 1538-1975 not the original parish register). The baptism for Christopher is mentioned as South Molton in 1603, for Abraham 1595 at Roborough and for Henrie 1597 no place is listed. Not all the records have been transcribed in the earlier time period for the various places mentioned.

Located directly below John Pinckombe and Jane Sherman and their children is Hugh Pincombe and his wife Sarah. This line is known to me and there is a mention of Landkey where they lived. Hugh Pincombe was one of the children of John Pincombe and Johann Blackmore who married 25 Sep 1655 at Bishops Nympton. This couple were likely my 7x great grandparents. Hugh was a younger brother to my ancestor William Pincombe who married Mary Vicary at Bishops Nympton. Hugh was the youngest child and youngest son in this family and is found at Landkey from 1687 till his death there in 1731. I have not been able to locate his marriage thus far. I have exactly the same information as appears on this chart plus some extra. This family should be excluded from the Barnstaple chart and included on the Bishops Nympton Chart.

Richard Pinkcombe (baptized 27 Mar 1585, died 1665) married to Mary Russell 23 Apr 1618 at Bideford is found to the left of John Pinckombe and Jane Sherman. According to Family Search the father of this Richard was Phillippe Pyncombe. I was not able to verify all of the information included on the chart but as the records for Bideford/Barnstaple become available on line these records could be verified.

On the right hand side of the chart beside John Pinckombe and Jane Sherman is listed William Pinckombe (died 1671) married to Wilmot Causy 1609 at Swimbridge. Their children are listed as John 1610, William 1611, William 1613 and Johane 1616. I was not able to verify any of these records although once again as these parish records come online at Family Search it would be easier to do the verification.

Acknowledgements were made to Patrick John Pincombe of Cheltenham. Tracing his line back on the chart we come to Abraham Pincombe whose parents are listed as John Pincombe (born/baptized 28 Aug 1728) and Elizabeth. This is a continuation from Chart 4 with Chart 4 being the Pincombe family of Beaford-Roborough-Great Torrington. Again I can not commit to any of these charts because I did not produce them. The records that are/were available to the researchers and the acknowledged donors of material are not available to me here in Canada. See Chart 4 which was discussed in Volume 3, Issue 2 of the Pincombe-Pinkham Newsletter.

These tables represent many years of work at the record offices by the two original Pincombe-Pinkham family researchers and Richard Pinkham was a physician and able to make contact with some of the Pincombe families living in Devon. The names seen on these charts usually in the top corners are individuals who provided information for that particular chart. In the case of charts from the United States, Galen Pinkham has contributed a great deal of information to the descendants of the Pincombe/Pinkham family and this information can be found on the charts which he produced. I do remind other researchers that there are discrepancies in these charts and I would appreciate knowing of any that you may find so that eventually a corrected chart will be published.

Thomas Pincombe in his will above mentions the property known as Molland Sarazin. The first mention I have thus far for this property was the will of William Pincombe probated in 1604 and is transcribed in Volume 1 Issue 3 of the Pincombe-Pinkham Newsletter. Finding this particular will helped me to link William and his seven sons downward with the parish registers in the various areas where his sons lived and his subsequent descendants. William's will mentions:

“..... Item whereas I have and houlde by the demise and grannte of John Davy

Thomas does not mention in his will either of his two brothers, Richard is known to be deceased in 1648 at Bishops Nympton and Symon is not found in the records thus far. He is said to be out of

the Realm of England in this will. With the father known as William and this will mentioning all of the children and grandchildren born by 1602 it is possible to build a good family tree for this line. I will say though that transcribing this will was a lengthy task at the time I first did so. The 1620 Visitation of Devon¹ with additions was partially helpful in that I could see where these individuals were placed in that Visitation by the time I had transcribed the several wills belonging to these close family members.

The Richard mentioned in William's will was my likely 9x great grandfather and William also mentions Richard's son William my likely 8x great grandfather. Richard was buried at Bishops Nympton 31 Jan 1648. His year of birth is not known although the North Molton parish registers commence in 1539. But it is believed that Thomas lived at East Buckland and Filleigh as did his son William. I have not yet acquired the records for East Buckland or Filleigh but the East Buckland parish records begin in 1684 and the Bishops Transcripts in 1597 and the Filleigh Parish Records begin in 1685 and the Bishops transcripts in 1608. Neither of these particular sets of records will assist with looking at this family in this area. Hence I must use the Visitations and Wills to put this family together until I have transcribed the other material that I collected. Portions of this family can be found on the Bishops Nympton chart and the North Molton chart and I have discussed that in several issues. Unfortunately my uncle chose not to assist the earlier researchers when they called him many years ago. My family line is incorrect in the charts but the bonus is that I became inspired to take on the Pincombe one-name study and hope to keep this up for quite a while yet! I also believe though that this call stirred an interest in my mother who about the same time started going to the Family History Library pulling out information on her

¹ <https://archive.org/details/visitationcount02camdgoog/page/n10>

Pincombe family line which was handy for me as I worked my way back. In her case she had family lore which helped her to place some of these people in the records that she found. Chatting with her in the late 1980s when my husband was creating a Family History Book for my parents 50th Wedding Anniversary, I remembered that she appeared to know the line back into the 1720s at Bishops Nympton (this had been recorded by her in her hand). This is always a sticky point for me because I knew the line back to the 1770s without a doubt primarily because of yDNA studies and the wills available to me but there wasn't an existing will at that time to my knowledge although I would later discover that the earlier researchers had taken transcripts of a number of the Pincombe wills before the bombing of the Exeter Record Office which were deposited at the Society of Genealogists. In 2013 I visited their library (I was a member at the time and continue a member). Family lore when I was a child placed some Pincombe members in Australia although no correspondence occurred between the lines to my knowledge.

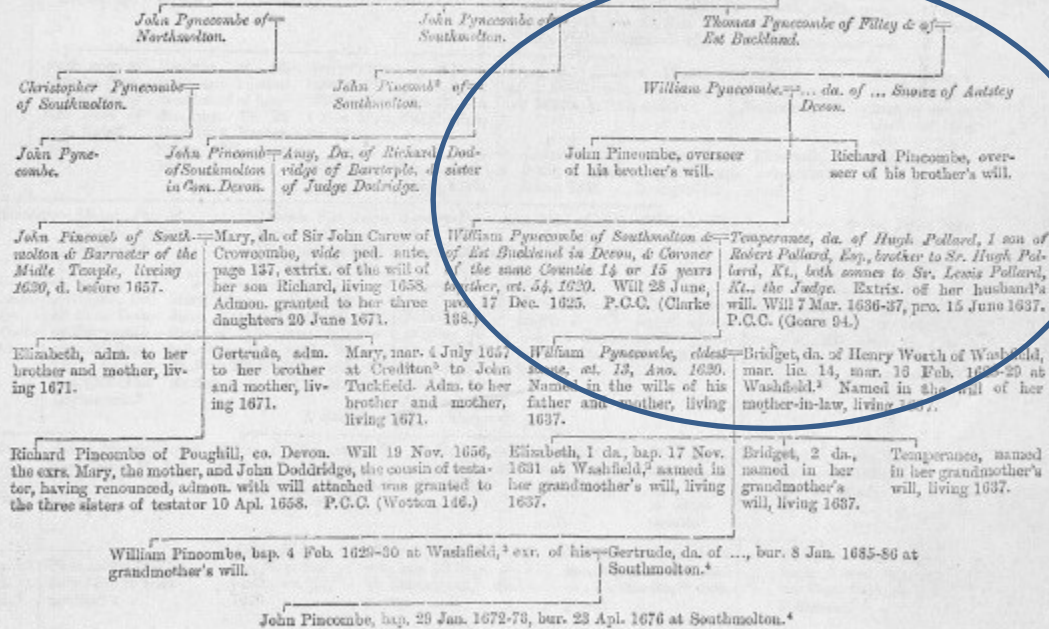

In the 1830s my 2x great grandfather John Pincombe was located at Lower Gatcombe in Molland which I have always found to be quite interesting. He received the leasehold from his Uncle John to the best of my knowledge and it would appear that the property was always to pass to a John Pincombe. However that needs to be verified and I may have the necessary documents in my treasure trove from the Archives when we photographed over 2000 documents in 2013.

... *Pincombe* of Northmolton, came thither with the *Lo. Zouch* about the beginning of the reign of *K. Henry 7th*.

. The portion of this pedigree printed in *italic* is a copy of the Original Visitation of Devon 1620, Harl. MS. 1163, fo. 95 b, not signed.
 1 The Visitation of Devon 1564 contained in Harl. MS. 1080, fo. 64 b, commences with this.
 2 The Original Visitation begins here.
 3 Washfield Parish Register.
 4 Southmolton Parish Register.
 5 Crediton Parish Register.

The implication in the Visitation is that the father of William who left his will dated 1602 and probated in 1604 was Thomas and that he was the son of the Pyncombe who accompanied Lord de la Zouch to North Molton following the Battle of Bosworth Field (this idea was created on the basis of the Visitation and the wills). Lord de la Zouch was attainted² for supporting Richard the III and presumably those who came with him shared the same banishment from any lands or holdings that they may have had. William who left his will in 1602/probated in 1604 would have been elderly – all of his children were capable of receiving their inheritances so over 21 years of age. If he married at a young age, say 20, and each of his children were born at least one year apart and he names nine children then the youngest may have been born when he was 30 and hence he had to be at least 51 years of age in 1602. That gives him a year of birth in the mid 1500s. His likely father Thomas left his will in 1544 (unfortunately destroyed in the bombing of the Exeter Record Office during the Second World War) so he was born at least by the early to mid 1540s. If his father was born in the latter part of the 1400s (his father had arrived at least by 1485 at North Molton) then this all works well in terms of generations since saying ten years for nine children was likely on the short side; perhaps closer to 15 or even 20 years.

Unfortunately the Visitation only mentions three of the sons of William the testator in 1602 (eldest John, second William and fourth Richard) with the others being Symon (third), Thomas (fifth), Lewis (sixth) and Peter (seventh). His two daughters are named Johane and Katherin but birth order is unknown.

Going back to Volume 1 Issue 3 with the will of William and using the Visitation of Devon 1620 we can see that William Pincombe was the son of Thomas and Johane Pencombe. Johane Pencombe's will was not lost but can be found in Volume 1 Issue 2 of the Pincombe-Pinkham Newsletter. Joane mentions that she is a widow living at East Buckland. Her sons Richard Pencombe (and his son not named), her daughter married to John Locke, her son John Pencombe (and his daughter not named), her daughter married to John Jasse (and their son John Jasse the younger) and her eldest son William Pencombe one might assume as he is named executor although no children are mentioned for William. Joane Pencombe's will is dated 7 May 1563 with probate completed 23 Oct 1590. Her date of death is not known to me but her husband died by 1544 although I do not think he was elderly at the time of his death.

The current will under discussion for Thomas Pincombe dated 1651 includes a good deal of genealogical information as well. His parents were William Pincombe and Emotte Snow as determined from the Devon Visitation and the will. He was the fifth son as it appears that the sons are named in birth order in the will. Symon, Richard and Thomas are named as the heirs to the property known as Over Mollande Sarazin. At the time of Thomas' will being written in 1563 Richard has died at Bishops Nympton (buried 31 Jan 1648). Symon does not appear in the records so Thomas is passing on this property as his own only since that was the criteria by which it was passed to him. He names his sons Thomas who will inherit Dobs Downe which is part of the Bartine of Molland Sarizine, Bartholomewe who will inherit the Bartine of Molland Sarizine (the present wife of Bartholomewe is Johane and he has two daughters Franncis by his first wife Frances) and Rechord (by his second wife Joan). The wife of Thomas is Johane and they have five sons William, Thomas, John, Richard and Robert. Thomas also names his daughter Grace

Hannanerd with husband Richard and daughter Katherine. Looking at the parish records for North Molton:

This first baptism is likely Thomas mentioned son of the testator with the next five being the sons of Thomas and his wife Johane/Joan. All of these children are born before 1653.

Then this record is the son of Bartholomew and Joane born after the will was written.

Pincombe John son Pincombe Bartholomew Joane 1654 Nov 27

Again all the dates of baptism are prior to the date of the will/probate except for the son of Bartholomew who is not mentioned in the will.

There are more records likely for the grandchildren of the testator and another time I will work on those records to fit them in. I have several hundred documents on the Pincombe family in Devon that I need to transcribe. They will assist with putting these families together. I am somewhat comfortable with the line that I have put together going back for my line but these documents will help to prove (or disprove as there can always be surprises!) that and provide details on the many Pincombe families that descended from the seven sons of William Pincombe and Emotte Snowe.

3. yDNA testing for Pinkham descendants

One of the members of the yDNA study has purchased two kits which he is willing to donate to a male candidate who has a paper trail going back four generations. I think that finding a Pinkham descendant would be the best candidate but will leave that up to the purchaser. Please contact the editor (kippeeb@rogers.com) for more details.

The yDNA testing for my Pincombe line at Bishops Nympton into the 1900s and dating back to the late 1590s at Bishops Nympton in the Parish Registers has been proven back to John Pincombe (baptized 13 Feb 1728 at Bishops Nympton son of John Pincombe and Grace Manning married 20 Mar 1725 at Bishops Nympton). Likely this line goes back to North Molton with Richard Pincombe (found at Bishops Nympton in his adult years) likely being the fourth son of William Pincombe and

Emotte Snow who lived at East Buckland and likely born at North Molton. My third cousin has tested for our line and he matches a fifth cousin and descendant of one of the other sons of John Pincombe and Mary Charley with this John Pincombe having been baptized 13 Feb 1728 at Bishops Nympton. A further match with these two has ancestry at Barnstaple and there is family lore that descendants of the Pincombe Family at South Molton (known to be related to the Pincombe family at North Molton) did move to Barnstaple in the 1500s. If a paper trail can be established then the line would be verified back to William Pincombe who left his will dated 1602.

4. North Molton Parish Records (Part 12)

These baptismal records are transcribed from the fiche of the original Parish Records for North Molton, Devon. I have changed the orientation of the newsletter to make it easier to publish the transcriptions for North Molton directly from my Excel file.
