### 1. The Pincombe-Pinkham Study at the Guild of one-name Studies

A complaint was received at one of the Guild Conferences that I had not responded to an email request although I do actually respond to every email received including responding to one rather suspicious item that I received several months before the complaint. An email came to me from my Guild email account which was basically just an attachment with Blake in the Subject line. I never open attachments from unknown sources including my Guild email address. I did write back to the sender requesting information on the attachment but to date I have never received a reply. At the time I was coming to the thought that I would step down from my studies at the Guild as both of my studies there tend to be somewhat controversial (Blake and Pincombe). However, I did give it some thought and decided that I had not yet completed all of my intended work on this study. I still have several hundred images that I took

at Kew that pertain to the Pincombe surname which I want to transcribe and publish in this Newsletter. I could still do that without being a member of the Guild but I strongly believe in the Mission of the Guild and will continue to support that Mission.

However, when I took over the Pincombe surname I was very very new to genealogy (indeed until 2003 I could honestly say that I never really looked at my family history). My husband is a keen genealogist having studied his family for over 50 years and I had, on occasion, looked up census, articles, etc for him but always felt that I knew my own family very well. Doing the one-name studies did show me that I did not know all there was to know about my family lines and I continue to this day working away on these two studies with the Guild plus many more surnames on my own account limited strictly to my own family.

At the time I took up the study I was aware that two earlier researchers had worked on the Pincombe-Pinkham surname for over 30 years and when the opportunity to go to the Society of Genealogists library in London, UK presented itself I did look at the material that had been placed with them following the stepping down from the study by the earlier researchers. Transcripts of wills that had been made prior to the bombing of the Exeter Record Office in WWII were an absolute gem and much appreciated. A set of bulletin board sized charts on the various families researched was also very handy and these were actually given to me by my cousin in England a couple of years before I went to the Library. I was hoping to see them once again but they could not be located at that time. I would have liked to take images of them to see if I could improve on the quality of the charts.

I will continue to pursue this study although anyone wanting to take on the Pinkham portion and work with me is welcomed to do so. Over time I have ascertained that the Pincombe line in the Barnstaple/Bideford area did take on the Pinkham spelling. I have not researched the Pinkham surname itself but the yDNA study does indicate that the present Pinkham testers and the present Pincombe testers belong to different sub haplogroups and are not related in a genealogical time-frame. My line was tested initially by my known cousin descendant of our mutual 3x great grandfather Robert Pincombe (baptized 4 Oct 1775 at Bishops Nympton, married to Elizabeth Rowcliffe 7 Jun 1803 at Bishops Nympton, died 23 Apr 1827 at Bishops Nympton and was buried 28 Apr 1827 at Bishops Nympton). Also at FT DNA a descendant of the father of Robert, John Pincombe baptized 13 Feb 1728 at Bishops Nympton, married Mary Charley/Charlie 8 Nov 1767 at Bishops Nympton and buried 9 Aug 1794 at Bishops Nympton, had tested. This tester was descendant of William, a brother to Robert. They were a perfect match. During the process of the study a third tester said to be descendant of the Barnstaple/Bideford line tested and is also an excellent match. The Barnstaple/Bideford line are said to be descendant of the South Molton Pincombe line which was located there in the 1500s. That proves my line back to that time period and the Visitations of Devon 1620 appear to also connect these lines. It does not necessarily prove that anyone is particularly right or wrong in their decision with regard to the ancient heritage of this family.

I would not like to see the study become mired in disagreement. We all have the same interest which is linking our family back in time with the history that has been recorded. Consequently I will not at this time or probably at any time in the future refer to the yDNA study other than

what I have written above unless there are a lot more people testing to change the present look of the study.

I should also mention that the Pincombe family from which I descend was originally recorded as the Pencombe family and that according to the Devon Visitation of 1620 they arrived at North Molton in 1485 or thereabouts. No originating location is given on any documents that I have looked at thus far for the Pincombe family in Devon. However, there is a document in the Calendar of patent Rolls which reads as follows:

1395 20 May Westminster (membrane 5)

Licence, for 100 s. paid in the hanaper by Philip Webbe, chaplain of a chantry of St. Mary in the parish church of Bromyard, for the alienation in mortmain by John Falke of a messuage in Bromyard, and by John Hunte or another there, and by Thomas Pencombe and Robert Stanford of five messuages and half an acre of meadow in the same place, not held in chief, to the said chaplain and his successors, in aid of their maintenance.

18 Richard II, volume 5, page 582

Bromyard is in Herefordshire. I do have the original copy of this document and will examine it to see if perhaps the spelling should have been Bromyard in the transcription. The date of 1395 is 90 years before the Pencombe family is found in North Molton.

A Cornwall researcher has mentioned to me that Pinkham/Tinkham is a Cornish name and suggested that as the origin of the surname. All that definitely needs to be looked at but time does not permit me to follow this idea at the moment.

## 2. Pincombe Charts, original One-Name Study at the Guild of One-Name Studies

These Pincombe Charts were created by the two researchers in the original One-name-study at the Guild of one-name-studies. I reprint them with the thought in mind that others could add to the knowledge of these charts. I have reworked some of them and will publish that information when complete. I am publishing a revision to the Beaford (Roborough) – Ramsgate Chart which was published in Volume 3 Issue 3, 2018.

The addition to the Chart is in the line of Lewis Pinkham (baptized 9 Jun 1799) and married to Sarah Rippon 16 Nov 1823 (at Barnstaple). Their daughter Elizabeth (baptized 13 Mar 1825) married John Gaydon a Jeweller who was a brother of Francis Gaydon (2x great grandfather of the correspondent).

These tables represent many years of work at the record offices by the two original Pincombe-Pinkham family researchers and Richard Pinkham was a physician and able to make contact with some of the Pincombe families living in Devon. The names seen on these charts usually in the top corners are individuals who provided information for that particular chart. In the case of charts from the United States, Galen Pinkham has contributed a great deal of information to the descendants of the Pincombe/Pinkham family and this information can be found on the charts which he produced. I do remind other researchers that there are discrepancies in these charts

and I would appreciate knowing of any that you may find so that eventually a corrected chart will be published.

The Visitation of Devon for 1620 and 1686 do assist with linking this William (testator in the will dated 28 Jun 1625) married to Temperance Pollard as the son of William Pincombe of East Buckland (and his wife Emotte Snowe).

PINCOMBE OF SOUTHEMOLTON.

Arms:—For pale Gules and Or: three above beaufort's, argent and Or.  
Crest:—An armed arm, embowed pale, grasping Or, holding in the hand a Palead mace.  
Age, inserted to the arm with a sword, Or.

 \* The Visitation of Devon 1654 contained in Harl. MS. 1050, fo. 84 b, commences with this.

William Pincombe (married to Emotte Snow) left his will dated 20 Dec 1602 and probated 13 Jul 1605. He and his wife had seven sons namely John, William, Symon, Richard (my likely ancestor), Thomas, Lewis and Peter as well as two daughters Johane and Katherin.

His son William (the testator) was still unmarried when his father died in 1602. As can be seen on the 1620 Visitation of Devon William Pyncombe was married to [Emotte] da[ughter] of Snowe of Antstey Devon with three of their sons listed John, Richard and William (John and Richard are listed because they were overseers of their brother William's will). William (the testator) is listed with the following notations:

William Pynecombe of Southmolton and of of E[a]st Buckland in Devon, Coroner of the same Countie 14 or 15 years together, aet 54, 1620. Will 28 June, pro[bated] 17 Dec 1625 P.C.C. (Clarke 138) and married to Temperance, da[ughter] of Hugh Pollard, 1 son of Robert Pollard, Esq[ui]re, brother to S[i]r Hugh Pollard, K[nigh]t, both sonnes to S[i]r Lewis Pollard, K[nigh]t, the Judge. Ex[ecu]trix of her husband's will. Will 7 Mar 1636/37, pro[bated] 15 June 1637. P.C.C. (Goare 94).

The information on William gives his date of birth as 1566 since he is 54 years old in 1620. John is the eldest brother in this family so must have been born earlier but after 7 May 1563 since their grandmother Johane does not mention the wife of William Pincombe or any children in her will dated 7 May 1563. This makes for a neat timeline for this family. We know the father of this William was dead by 28 December 1602, married by 1563-4 and possibly born in the 1540s or earlier.

The other item to ponder at this point is the will left by Emot Pincombe in 1620 according to the Devon Calendar of wills on Genuki Devon. Was this Emotte married to William Pincombe who died in 1602 or was this Emet Hodge married to John Pyncombe? If it was Emotte then she outlived her husband by 18 years and would have been in her 80s likely when she died (which isn't impossible as some people did live that long even back in the 1600s) giving her a possible year of birth in the 1540s.

The children of William Pincombe (the testator) and Temperance Pollard are listed (on the Visitation) as (William and John):

William Pyncombe, eldest sonne, aet 13, ano. 1620. Named in the wills of his father and mother, living 1637 and married to Bridget, da. of Henry Worth of Washfield, mar. lic. 14, mar. 16 Feb 1628/29 at Washfield. Named in the will of her mother in law, living 1636. (The chart from the earlier researchers has a baptismal date of 16 Mar 1606. The IGI has a baptism (patron entry) 16 Mar 1605 (new style would be 1606) at North Molton for a William Pyncombe son of William Pyncombe.)

John Pincombe, baptized 4 Aug 1610 (from the chart produced by the earlier researchers). Again the IGI has a baptism for a John Pyncombe 4 Aug 1610 at North Molton son of William Pyncombe (patron entry).

The children of William Pincombe and Bridget Worth:

William, Pincombe, bap 4 Feb 1629/30 at Washfield (executor of his grandmother's will) and married to Gertrude who was buried 8 Jan 1685/86 at South Molton.

Elizabeth, 1 da., bap. 17 Nov 1631 at Washfield, named in her grandmother's will, living 1637

Bridget, 2 da., named in her grandmother's will, living 1637.

Temperance, 3 da., named in her grandmother's will, living 1637

#### 4. yDNA testing for Pinkham descendants

One of the members of the yDNA study has purchased two kits which he is willing to donate to a male candidate who has a paper trail going back four generations. I think that finding a Pinkham descendant would be the best candidate but will leave that up to the purchaser. Please contact the editor ([kippeeb@rogers.com](mailto:kippeeb@rogers.com)) for more details.

#### 5. North Molton Parish Records (Part 13)

These baptismal records are transcribed from the fiche of the original Parish Records for North Molton, Devon. I have changed the orientation of the newsletter to make it easier to publish the transcriptions for North Molton directly from my Excel file.
